Linking it to its maritime environment, the Wenzhou Theatre has been inspired by a golden fish in its water pond.

It's shape and glorious create a unique form with its tail marked by a waterfall over the main entrance as a fresh splash of water. Its delicate image will make of Wenzhou Grand Theater a symbol of the city easily recognizable around the world strategically, the theater as the main hall is the center of the composition.

Underneath it the Concert Hall shares the main axis of the project.
